

US-89 Chip Seal Kanab to Petrified Hollow

Project Notice

The Utah Department of Transportation (UDOT) will be completing a pavement rehabilitation project east of Kanab for approximately 18 miles along US-89. This project will include Chip Seal Overlay which will strengthen and extend the life of the existing roadway. Outlined below are the areas in which this construction will take place. Residents should be aware of construction vehicles, and expect an increase in congestion during times of construction. Additionally, a pilot car system will be used. Motorists can expect delays of up to 15 minutes.

Mid-June to Mid-July

- Chip Seal Overlay.
- Pilot Car system will be used.
- 7:00 a.m. - 7:00 p.m. Monday-Friday.

Mid-July to August 31

- Shoulder upgrades, signs, delineators, and pavement marking paint.
- No Pilot Car.
- 7:00 a.m. - 7:00 p.m. Monday-Friday.

August 31

- Substantial completion.

*Schedule subject to change pending weather and other unforeseen circumstances.
